

COMP3830 : Information Security

An introduction to both the technical components of information security as well as security management. Coverage will include inspection and protection of information assets, detection of and reaction to threats to information assets, and examination of pre- and post-incident procedures, technical and managerial responses, and an overview of the information security planning and staffing functions. Students will also have hands-on experience in selected information security technologies through lab sessions. **Fee:** Additional fee required.
